## Projects

**Runtaobl** [live] [repo] — *Full-stack blogging app made with React.js, Redux & Ruby on Rails*

- Implements infinite scroll dashboard using the react-infinite library to reduce whole page re-renders and increase user engagement
- Uses Amazon S3 services to store image, audio, and video content for variety in content
- User show pages are publicly viewable and encourages non-account holders to sign up

**My 3D Life** [live] [repo] — *3D implementation of Conway's Game of Life using JS & Three.js*

- Voxel painter utilizes raycasting and allows a user to create unique initial patterns
- Trackball mouse movements allow control of camera view to see complex 3D structures
- Preset famous initial patterns such as Gosper glider gun and Garden of Eden

<div>

**DOMarama** [repo] — *HTML DOM manipulation with plain JavaScript*

- Users can create and manipulate DOM elements and send simple AJAX requests. AJAX requests return chainable promises for full XMLHttpRequest functionality
- Strings are appended to elements as Text elements to cover nested elements
- .on() and .off() are available as shortcut event listener alternatives

## Work Experience

Research Assistant in Neuroscience. NYU School of Medicine.

*From April 2014 to June 2016*

- Increased surgery and behavioral test efficiency on rodent models by 20%
- Coauthored and produced figures on two publication submissions
- Managed laboratory supplies on operating grants, including wet laboratory materials and electrophysiological and optogenetic hardware, totaling \$2M

## Education

App Academy. New York, NY.

*October 2016 to January 2017*

Full-stack web development course  
with < 3% acceptance.

Columbia University. New York, NY.

*August 2011 to May 2015*

Bachelor of Arts

Biology with concentration in Premed.

3.60 Cumulative GPA.

## Skills

- |              |            |             |
|--------------|------------|-------------|
| • Ruby       | JavaScript | Photoshop   |
| • Rails      | React.js   | Illustrator |
| • RSpec      | Redux      | InDesign    |
| • HTML5 CSS3 | jQuery     | 中文          |
| • SQL        | AWS        | Git         |
